JUST  
A CANDLE

it's so  
much more

COLLECTION  
**2023**

FOR ALL OF US

**bolsius**  
since 1870

## Bolsius, For all of us

Since 1870 we have enhanced magical moments for you, and future generations. With respect to our heritage, an eye for quality and love for people and the planet, we are here for all of us.

We believe experiencing the magic created by the flame or fragrance in the comfort of our home leads to a greater sense of connection and, in turn, a more meaningful life.

So we say: take care of us.  
Show kindness.  
Choose love.  
Respect nature.

Step by step, we pioneer sustainable solutions as fair as we possibly can, working with natural extracts, natural vegan wax and no palm oil. Thanks to our irresistible style, best-in-class burning and fragrance, our products have the potential to make every moment a magical one; enabling you to reconnect with yourselves, your loved ones, and the world around you.

It may sound big, but actually it's not.  
Just remember, we are here for you.  
We are here for all of us.

### IRRESISTIBLE EXPERIENCE

With our strong heritage since 1870 and passion for home ambiance, we guarantee the highest quality. So you can enjoy a perfect flame and an excellent fragrance experience.

### SOCIAL RESPONSIBILITY

Everything we do, we do with love for people and planet. That's why we produce our collections in Europe and minimize the usage of animal fat where we can.

### MISSION GREEN

We love to keep on creating magical moments for you and future generations. That's why we pioneer with either olive, rapeseed or sunflower oil from Europe. We also use natural extracts, a cotton wick and are rethinking eco-friendly packaging. Our ecological footprint is on top of our minds!

AN AMBIANCE  
BOOSTER  
FOR EVERY  
OCCASION

With CleanLight we target a group of conscious consumers. This sustainable choice is of great added value to the fragrance category.

## CleanLight

The revolutionary technology behind the double-walled glass holder ensures that the refill burns up completely, leaving only the wick holder behind. CleanLight not only helps to create atmosphere; it also burns cleanly and leaves very little waste.

# Tealights

Tealights allow you to create an ambiance in any room. Bolsius tealights are available in different size bags and in a handy storage box so the tealights don't get damaged. The colour coding on the packaging shows the different burning hours of the tealights. Bolsius tealights give you many benefits; Premium quality, beautiful flame, steady burning behavior and minimal residu.

- With natural vegan wax
- Palm oil free
- Cups from recycled plastic

Beside these memorial  
lights we also have a  
country specific assortment.  
Please contact your  
Account Manager for  
more information.

# About our quality candles

Bolsius has been producing quality candles in multiple European production locations since 1870. Our specialists in marketing and research & development anticipate questions from the market and translate actual trends into appealing new products. No matter which products we introduce, they always live up to the highest quality standards.

The Bolsius quality seal, which you can find on our packaging, symbolizes this quality. You can also find the RAL quality stamp as well as the Green Dot logo on the packaging. The RAL quality stamp refers to an official European quality standard which offers guarantees in the area of standardization of sizes, weight, use of safe and pure raw materials as well as safe burning behavior. The Green Dot logo is an environmental registration logo. It means that we as a manufacturer contribute in the cost of separation of waste as well as the recycling system.

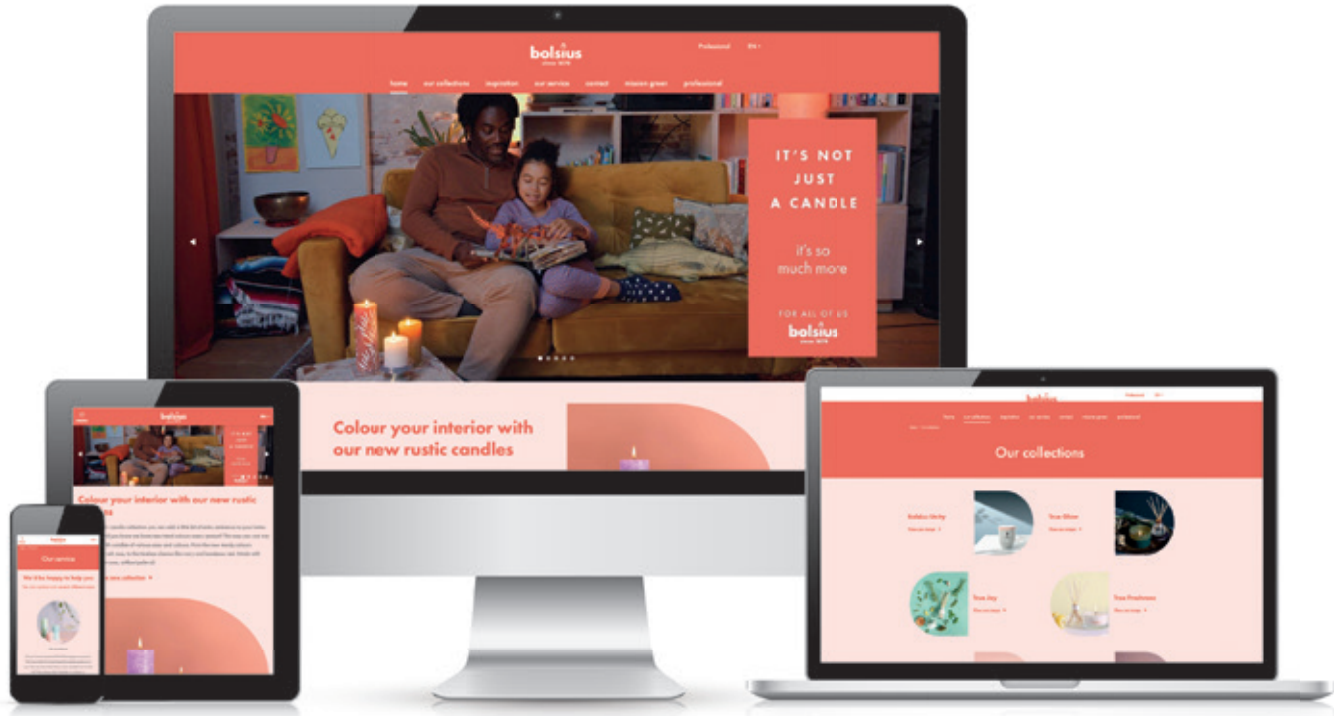

### User instructions

Bolsius considers safety of paramount importance. Not using candles in the right way can be dangerous. We provide user instructions by means of pictograms on our packaging, according to the European law EN 15494 “Candles – Product safety labels” and EN 16740 “Emission safety of combustible air fresheners – User safety information”. With these instructions, the consumer can enjoy the candles safely and optimally. The meaning of the pictograms can be found below.

	General warning sign.		Do not move a burning candle.		Candle gets lighter during burning project from strong wind by using a suitable holder.
	Never leave a burning candle unattended.		Never use liquid to extinguish.		Do not use on a balcony or veranda.
	Keep away from things that can catch fire.		Remove packaging before use.		Do not burn in rain or snow.
	Keep away from children and pets.		Trim edge if higher than 1 cm.		Use in a suitable lantern.
	Use a heat resistant candle holder.		Only use in holders and warming stoves with sufficient ventilation.		Ensure a firm stand.
	Use in a suitable bowl filled with water.		This candle liquefies, use a suitable container.		Do not touch a burning garden torch.
	Ventilate the room after use.		Do not touch, may be hot.		Do not touch, may be hot.
	Avoid direct inhalation of any smoke.		Do not burn in a warming unit.		Keep a minimum distance of x m to the garden torch.
	Keep candles at least 10 cm apart.		Danger of burns from liquefied wax.		Straighten wick.
	Do not burn in a draught.		To avoid spatter, do not add water or fragrance oil to wax.		
	Do not place candles near a source of heat.		Not suitable for consumption.		
	Place candles in an upright position. Candles on a slant can smoke or drip.		Always place in upright position.		
	Trim wick to about 1 cm before lighting.		For outdoor use only.		
	Always snuff out the flame. Do not blow it out.		Only use at cemeteries outdoor.		
	Keep the wax pool clear of matches and other debris to avoid flaring.		Keep a distance of x m beside and y m above things that can catch fire.
